What size work could you pursue?

Matched national physical-access new awards

FY2025: 116 funded new awards; 80.2% below $0.25M; median potential $0.07M. Bands: 93 below $0.25M; 11 from $0.25M to below $1.00M; 12 at least $1.00M.

FY2026: 74 funded new awards; 78.4% below $0.25M; median potential $0.11M. Bands: 58 below $0.25M; 11 from $0.25M to below $1.00M; 5 at least $1.00M.

Coverage and basis

The explicit physical-access/system-name description search is a subset of latest reported 561621 records, not an exhaustive specialty market. New means first recorded action in the fiscal year; positive funding and potential above $1. FY2025 excludes one nonpositive record; FY2026 none. Potential includes options, not annual prices.

Broader Indiana systems services have eight and six eligible new awards in FY2025/FY2026; the narrow match finds one each. The FY2025 matched description refers to SeaTac despite reported Indiana geography; it is not taught as a verified local facility.

The broad historical baseline overlaps fire/security. Keep exclusions in the audit and search installation, hardware and software separately without adding overlapping totals.

These are historical contracts, not open bids. Verify actual purchased service and physical site; full values are not one-ZIP allocations. End dates are watch leads, not promised recompetes.

What may be coming next?

One verified wider-market plan

DHS APFS F2026074205: USCIS Gallagher enterprise licenses and support, $1.00M–$2.00M; estimated release 2 Nov 2026, award Q2 FY2027; Camp Springs, Maryland. Reported 541519 is outside this historical baseline. Forecast specifies NASA SEWP V, women-owned small-business program and authorized Gallagher reseller route. https://apfs-cloud.dhs.gov/record/74205/public-print/

Official NASA page checked 10 Oct 2026: SEWP V extended through 31 Jan 2027; SEWP VI transition anticipated from 1 Nov 2026. Confirm the released requirement's actual vehicle. https://www.sewp.nasa.gov/

Separate the leads

Forecasts are planning records, not open bids or additional measured funding. Contract ends need verified follow-on evidence. Current notices need live status/deadlines and complete documents.

The public catalog can supply supported awards/notices and available forecast records; official facility, manufacturer and agency pages supplement it. Do not promise every independently researched dataset is exposed by the connector.
