Durham: apply the current requirement

The evidence

VA Durham medical center groundskeeping, notice 36C24626Q0892. Use https://sam.gov/opp/3c9006d433694934845656c2f4b3a420/view. Full Amendment 0003 was read (extracted document 4, paragraphs 1–399), together with relevant base paragraphs. The extraction uses paragraphs where PDF pages are unavailable.

What changed

Amendment 0003 replaces the older base-plus-four-option-year schedule. Its current line items show a base period of 1 Nov 2026–31 Oct 2027. It also changes technical answers and says prior groundskeeping was performed in-house.

Timing check

The notice snapshot is dated 10 Oct 2026. Amendment cover says 12 Oct at noon EDT, while continuation says EST. Recheck the official notice and confirm the ambiguity with the buyer before relying on a submission time. This is a dated worked example, not a promise the opportunity remains open.

Your decision record

Durham asks for five distinct parts of the quote.

Keep the actual structure visible while you assign the work. Next action: Use Amendment 0003's new schedule; refresh the live deadline and instructions before submission.

An amendment can change what you price and submit.

Durham's current amendment replaces the original base-and-options schedule. Next action: Do not carry an older schedule into the final quote.

Review the actual package against the evidence matrix.

Completeness is requirements coverage, readable proof and correct submission. Next action: A completed checklist is useful only when it describes the actual final package.
